## Lots

- › The lot size for a team of 4 is at least 40 m<sup>2</sup>. In most cases the dimensions are 12 x 3.5 m. Teams of 8 get two lots, teams of 2 and individual riders get half a lot each.
- › The composition of the ground can be seen on the site plan (asphalt, gravel or grass).
- › Each lot has a number. The location is marked on the map. The entry zone can be seen from the color of the entry permit: blue and green over Dunlop bend. Yellow, orange and red over Hatzenbachstunnel.
- › Each lot is marked with a number. It hangs in the middle of the lot. The specified widths (usually 3.50 m) must be observed. „Border conflicts“ are best solved bilaterally by the respective neighbors.
- › In case of “neighborhood problems” keep calm and in case you don’t find an amicable solution send the participants to the race office (next to pit 1).
- › Large advertising facilities are generally forbidden in the lot area.
- › Electricity is available in the vicinity of each lot. The participants must independently provide for plug connections and supply lines. The quantities of electricity are low and not designed for large gadgets such as refrigerators etc. - this was communicated in advance!
- › Having a barbecue is basically allowed with a suitable „device“. The grill must always be supervised. Discharging barbecue charcoal for annealing is prohibited.
